## **MAVERICK SERIES AD-1 TENSION PACKERS**

The Model AD-1 Tension Packer provides a compact, economical, retrievable packer for use where a Set-down type pack is impractical due to pressure requirements. Although the AD-1 Tension Packer is designed primarily for *waterflooding*, this plug can also be used for pressuring operations such a formation fracturing in shallow or low-fluid-level wells.

### **FEATURES:**

- . Utilizes rugged rocker type slips
- . Bore through the packer mandrel is larger than drift
- . Simple, low cost packer for fluid injection
- . Three released methods insure retrieval
- . Proven one-piece packing element
- . Alternative shear release
